

MULTI-BORING UMB 21

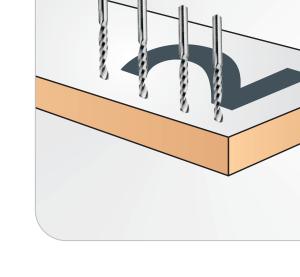

Single Row Multi-boring Machine

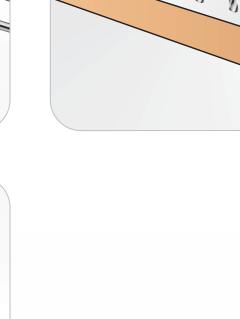

SALIENT FEATURES

- The imported original drill row, famous & superior original electric appliance.
- The machine tool elements choose the surprise steel materials. They have been
- heal-treater with high intensity. Prompt accurate and convenient operation.

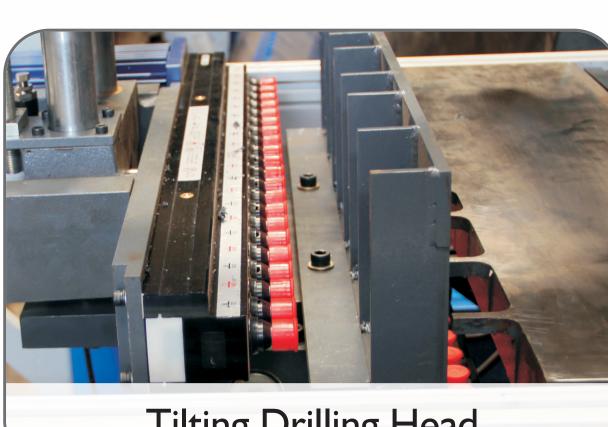

MULTI-BORING UMB 42

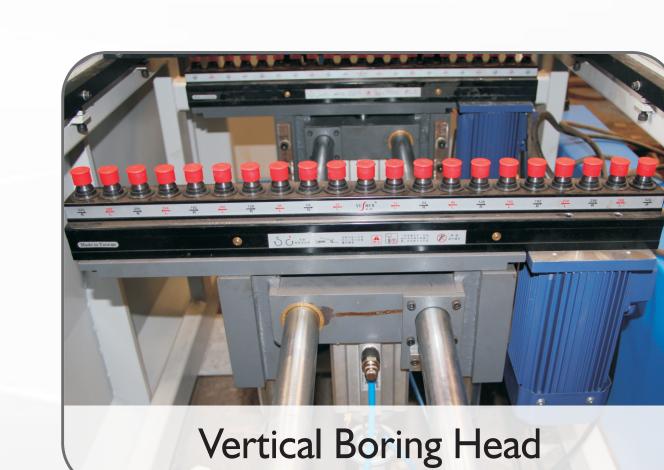

Two Row Multi-boring Machine

Tilting Drilling Head Can do accurate hole on surface

as well as on edge of board. Tilting drilling head can move on 90°

• 21 drilling bits at 32mm distance.

MULTI-BORING UMB 63

Three lines Multi-boring Machine

SALIENT FEATURES

- The machine tool components choose the superior steel materials, they go through the highly and strong heat treatment.
- The moving parts choose the high Grade anti-wear materials.
- They are firm and durable.
- Multi-drill has been elaborately made. It has multiple purposes with high speed and fine accuracy.

TECHNICAL SPECIFICATIONS

MODEL	UMB 21	UMB 42	UMB 63
Distance between the bit	32mm	32mm	32mm
Horizontal head			
Vertical head	_		2
Tilting Head			
The quantity of spindle	21	42	63
Maximum boring diameter	35mm	35mm	35mm
Maximum panel thickness	60mm	60mm	60mm
Maximum panel width	2400mm	2400mm	1800mm
Minimum panel width	200mm	200mm	_
Total power	1.5kw	3kw	4.5kw

First & second vertical head

- Equipped with one tilting head and two vertical head.
- 21 drilling bit in each head.
- Mainly used for drilling in long board at one time.
